Wash This Way

Shampoo your hair, water-free.

Whether you're preserving a blowout or "occupying" someplace without showers, there are times when shampooing with water just isn't an option. That's why we're excited about all-natural, LA-based **Ambiance Volumizing Dry Shampoo**.

While **the powder absorbs oil, removes dirt and adds volume**, it doesn't leave behind a white residue like old-fashioned dry shampoos. Even better, it's free of parabens, preservatives and alcohol. And it has a surprise bonus: it comes in five hair-matching colors--brunette, blonde, black, red and gray--that **even cover your roots** between colorings.

Our tester loved the **lift** Ambiance gave her locks at the end of a long day. "The brush with the built-in powder is perfect for my purse or gym bag," she said. "I actually don't have to go home to shampoo and style my hair before I go out."

Want to try going dry? **Grab Ambiance's DIY tips** to get started.

Regular shampoo is **all wet**.

Got a friend on the go? **Tell her about it!**
